Homework 1: Review of HTML

[Total Points: 10]

Assignment Due: Friday, January 17, 2020, 11:59PM

1. Review HTML

A good resource is <https://www.w3schools.com/html/>

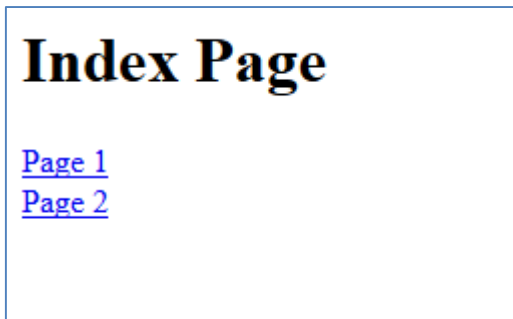

Some of the tutorials that would be useful to do the assignment are the following:

HTML Input Types	https://www.w3schools.com/html/html_form_input_types.asp
HTML Attributes	https://www.w3schools.com/html/html_form_attributes.asp

I strongly suggest you do the “Try it Yourself” exercises. If you are familiar with HTML, you may skip this step.

2. **Create an offline HTML website that has three pages** (10 points)

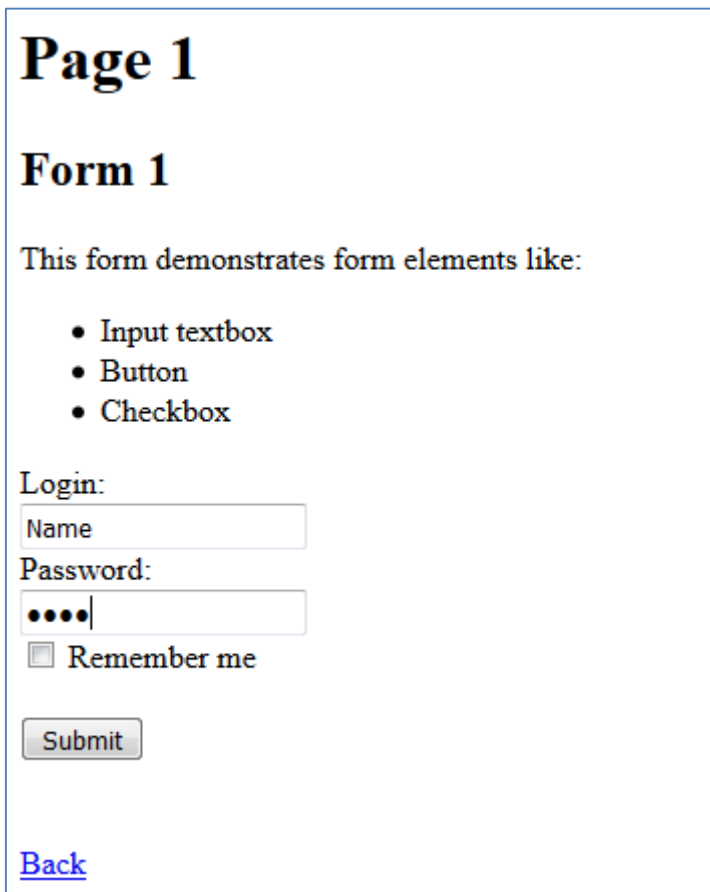

1) **Index page: index.html**

A screenshot of a web browser displaying the 'Index Page'. The title 'Index Page' is at the top in a large, bold, black serif font. Below the title, there are two blue, underlined links: 'Page 1' and 'Page 2'.

When clicking “Page 1”, Page 1 must be loaded.

When clicking “Page 2”, Page 2 must be loaded.

2) **Page 1: page1.html**

A screenshot of a web browser displaying 'Page 1'. The title 'Page 1' is at the top in a large, bold, black serif font. Below the title is the section header 'Form 1' in a bold, black serif font. The text 'This form demonstrates form elements like:' is followed by a bulleted list: 'Input textbox', 'Button', and 'Checkbox'. Below the list is a 'Login:' section with a 'Name' input field, a 'Password:' label, and a password input field containing four black dots. Below the password field is a checkbox labeled 'Remember me'. At the bottom of the login section is a 'Submit' button. At the very bottom of the page is a blue, underlined link labeled 'Back'.

The password input textbox must be used for entering password.

Submit button when clicked does nothing.

When clicking “Back”, the Index page must be loaded.

3) Page 2: page2.html

3. **What to Submit:**

- Create a folder which contains the three html files (index.html, page1.html, page2.html). Compress the folder to a (.zip) and rename it to your “Last Name_First Name.zip”.
- Submit via Canvas the **compressed file (.zip)**.
